機械館施工動線管制-吊掛、物料暫置(平面圖)

The plan view on the Mechanical Engineering Building, where the construction will take place

工程進場時間會進行吊掛作業，會有大型吊車，我司會實施交管作業與施工區域封鎖管制，預計動線如圖示。

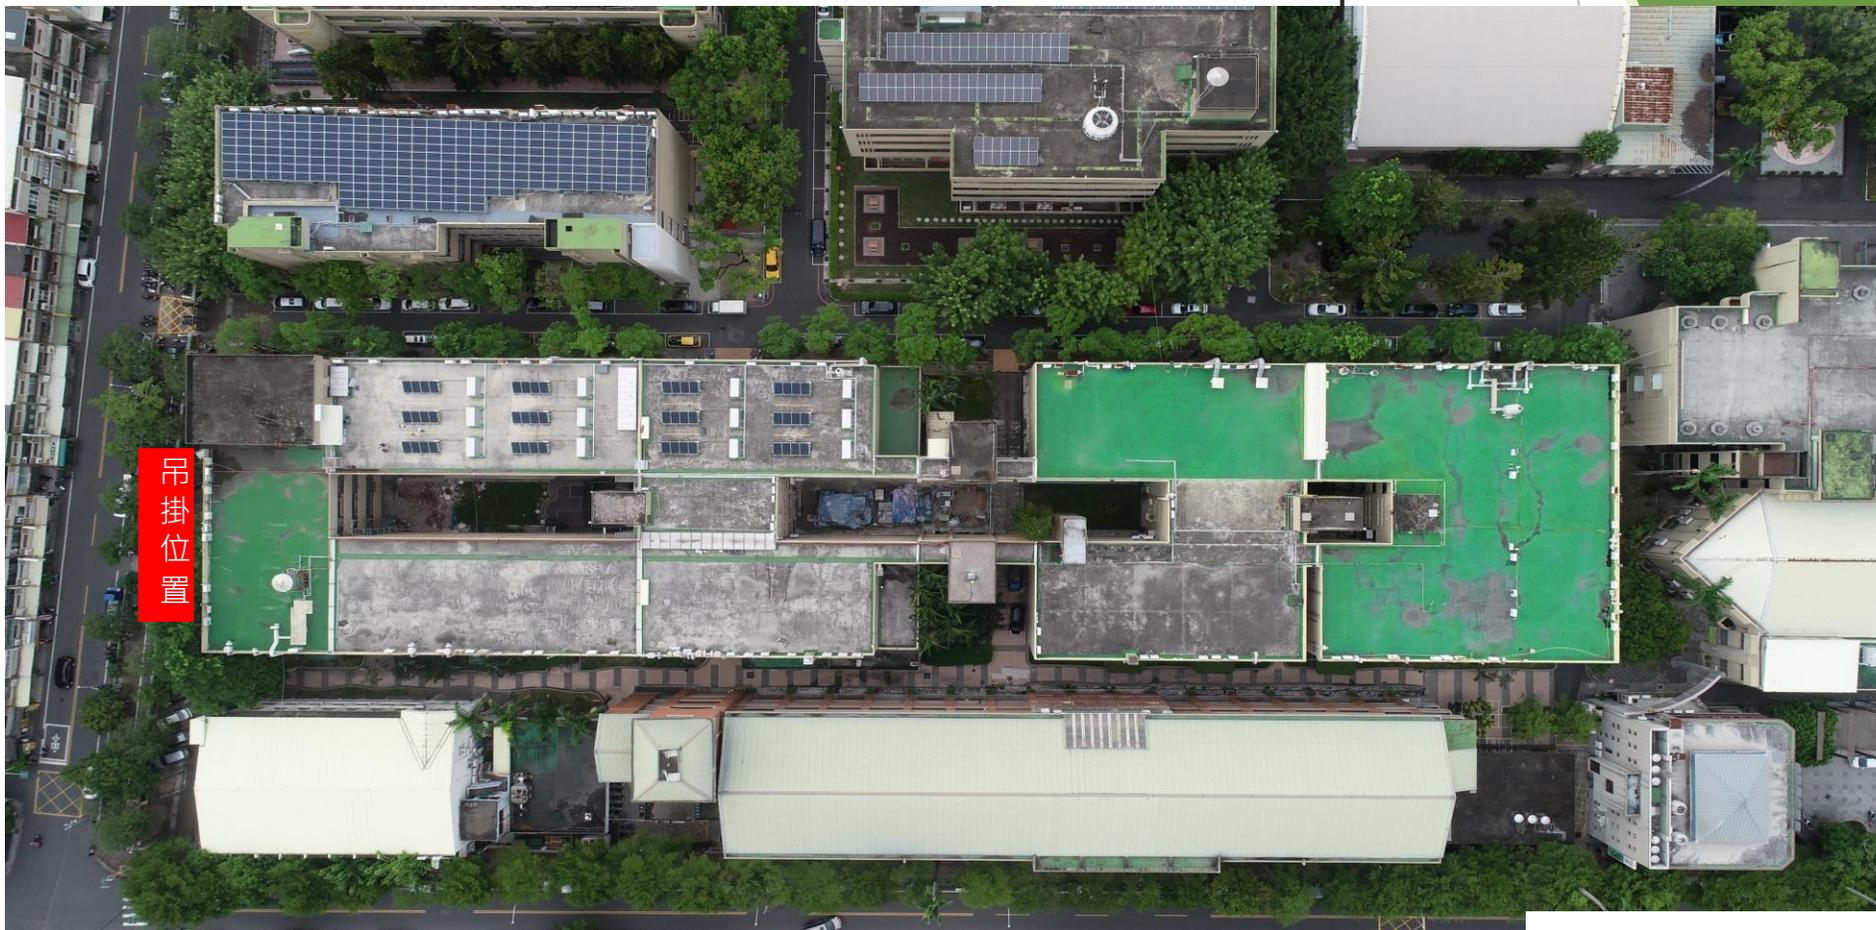

預計吊掛次數8-10次，約3H/次。There will be heavy-duty cranes to carry out the construction. Our company will impartment traffic control and lockdown on the construction area. Please refer to the picture for the construction area.

Lifting will be conducted eight to ten times.

Each time will last about three hours.

The lifting will be conducted on Dec. 17 and from 8:00 am.
